

# Think Outside!

Outdoor Science Education for  
Middle School Students & Their Families

## FALL 2020 SERIES

The Palouse-Clearwater Environmental Institute (PCEI) is excited to announce a **FREE** fall educational series of exciting, hands-on activities geared towards middle school students with their families.

This series is made possible in partnership with Elementary Sciences Methods Practicum Students from the University of Idaho.

UI Practicum students will guide participants through lessons which align with Next Generation Science Standards (NGSS, K-12 Science Education Content Standards). While lessons are designed to be NGSS grade-specific, we encourage families to participate in the lessons.

This is a COVID-conscious program and masks are required for all participants. **Registration is limited to 10 families per lesson. Email [learning@PCEI.org](mailto:learning@PCEI.org) to register your family today!**

**TUESDAY MORNINGS: 10/13, 10/20, 10/27 & 11/3 9:AM TO 10:30AM  
AT THE PCEI NATURE CENTER, 1040 RODEO DRIVE, MOSCOW, IDAHO**

**To register, email - [learning@PCEI.org](mailto:learning@PCEI.org)**
