

# Palouse-Clearwater Environmental Institute

presents the

2015

## Seasonal Wanderings Family Series

Check out our **free, fun and entertaining** family programs this fall!

**REGISTRATION REQUIRED!**

### October

#### Lovely Leaves

*Saturday, Oct. 10th • 10:30AM-12PM*

One of the greatest things about fall has to be the changing colors of the leaves! Join PCEI staff at our Nature Center for an exploration of local foliage ending with a group leaf pile party!

### November

#### Harvest Hike

*Saturday, Nov. 14th • 4:00-5:30PM*

What did harvest season on the Palouse look like throughout history? How did the local habitat shape human tradition? Join local historian, Sandra Kelly, for a hike through time around the Nature Center trails. Stick around for a delicious serving of warm, seasonal soup!

### December

#### The Wonders of Wildfires

*Thursday, Dec. 10th • 6:30-8:00PM*

Why was it so smoky out here this summer? How do wildfires happen and what do plants and animals do to deal with it? PCEI staff and local fire researcher, Aaron Sparks, will explore ideas like this through games, experiments and demonstrations! Make sure you stick around for a campfire and marshmallows!

**PCEI Nature Center  
1040 Rodeo Drive**

Suggested Donation: \$3 per person  
OR become a member that evening!
